The LLM revolution

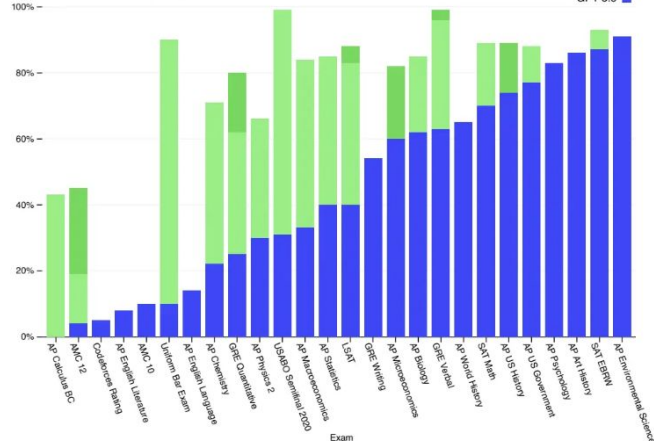

LLM - Quality Over Time

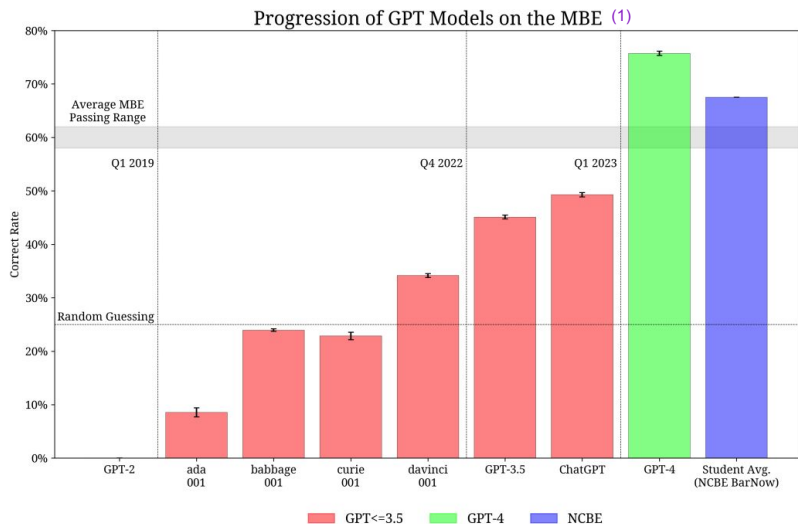

GPT-4 University Admission Exams (2023)

Exam results (ordered by GPT 3.5 performance)

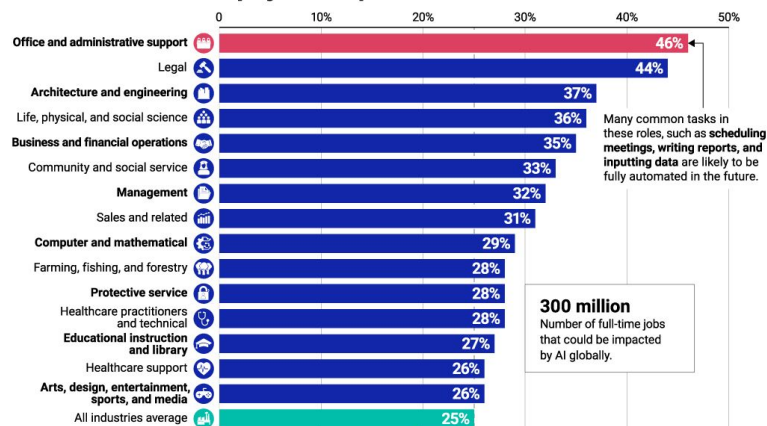

Estimated percentile lower bound (among test takers)

Legal AI: at tipping point

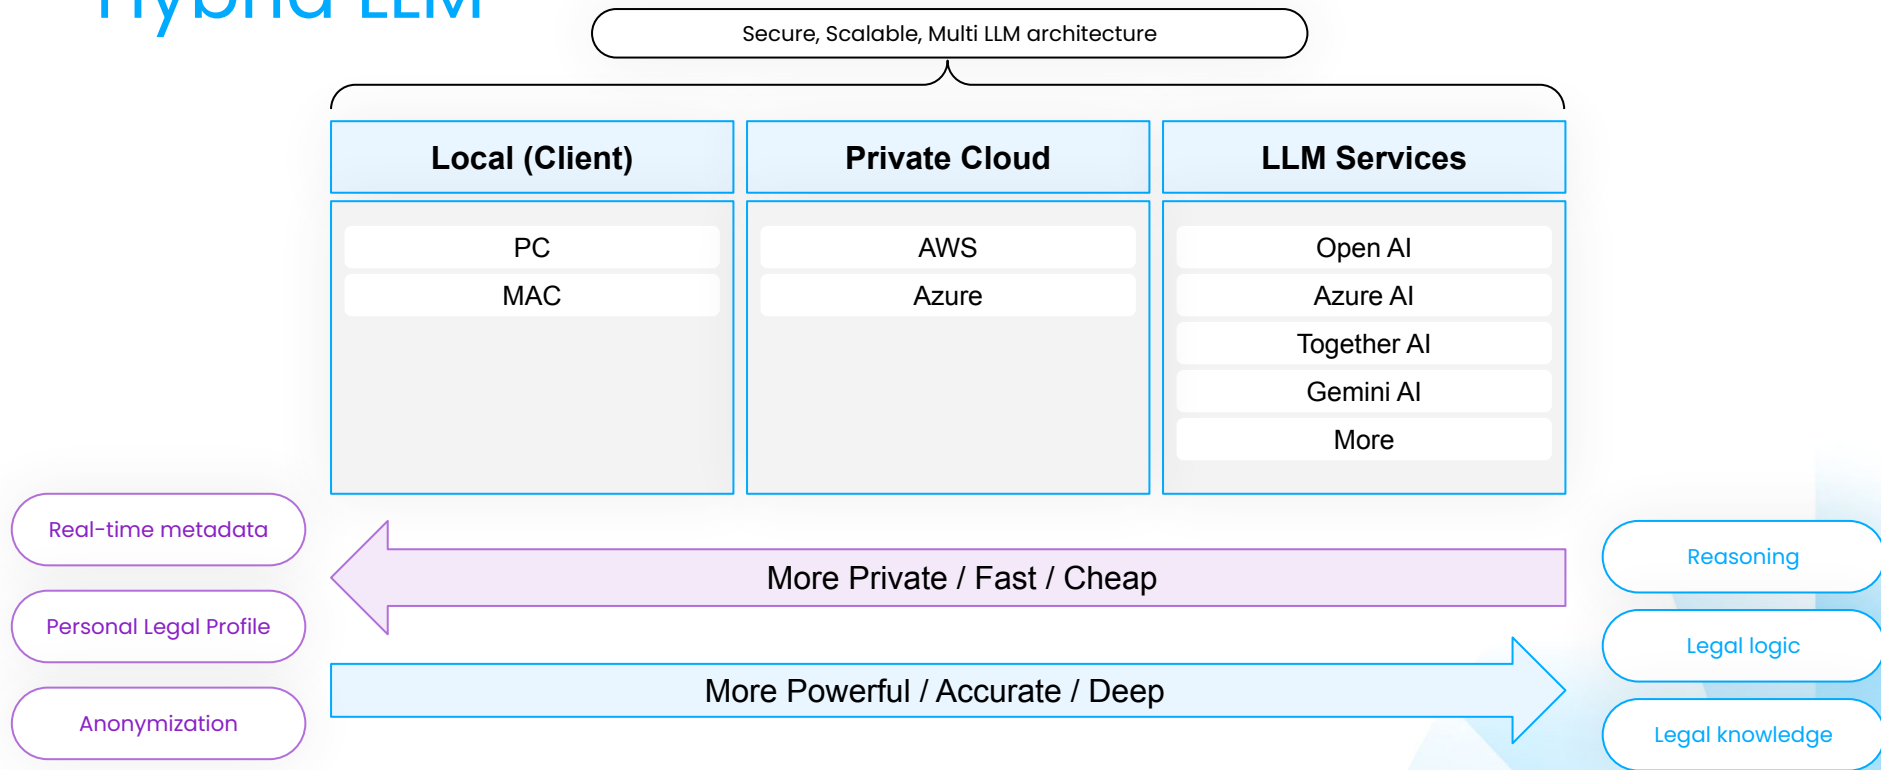

Estimated Share of Employment Exposed to AI Automation (2)

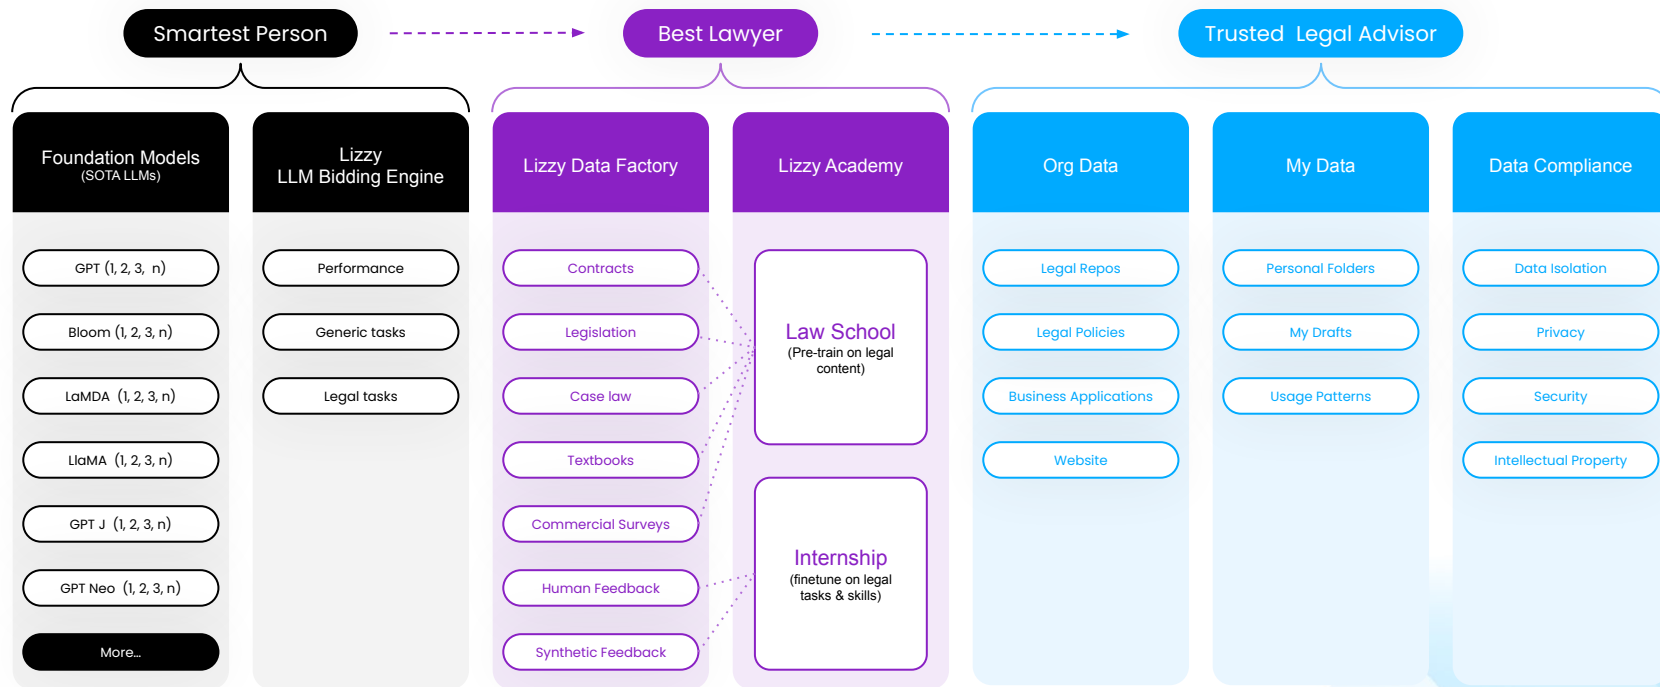

300 million
Number of full-time jobs that could be impacted by AI globally.

(1) OpenAI (2) Goldman Sachs

Hybrid LLM

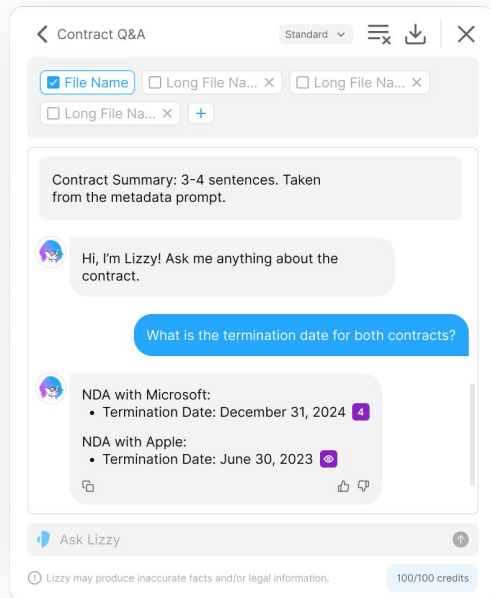

Technology

The Challenge

What is Contract Q&A?

Ask anything about the contract

Inside MS Word (Add-in)

Chat Experience

Add related contracts

Why use RAG? (vs. Full Document Prompting)

- **Unlimited Context**
 - LLMs are limited in contexts size
 - Contracts are long... and come in batches
- **More Accurate**
 - LLMs struggle with long documents
 - RAG makes them more accurate and effective
- **Much Cheaper**
 - Sending full contracts to LLM is expensive
 - With RAG you send only the relevant parts

What we expect on this challenge?

Good	Better	Great
<ul style="list-style-type: none">Basic Flow WorkingEvaluation in placeSuggest solid enhancements	<ul style="list-style-type: none">Implement various chunking strategies, evaluate performance and select winner	<ul style="list-style-type: none">Implement and test one more potential type of improvement

We look for: Deep understanding, Quality Code, Working functionality

THANK YOU
